

2012 Spring Schedule

Introductory Stained Glass

Build your own stained glass window using the copper foil technique. In this five-week course, students will learn all processes involved. Students choose their pattern and pick out glass, learn to cut, solder, and frame their finished piece. Students can purchase all the materials during class with a 10% student discount. Tools and materials are an estimated \$250 extra. When class is finished, students will have the necessary skills and materials to continue the craft at home or during Stained Glass Garden's Studio Time. **TUITION \$125**
